

FINAL TABULATION OF ALL GOLF FUNDAMENTALS

- 1 Keep your head steady.
- 2 Keep your left arm stiff.
- 3 With your right arm guide club thru proper swing slope.
- 4 With your shoulder rotary action control the parallel of your swing.
- 5 With your hands, control the facing of the club face, and therewith the direction of the ball's flight.
- 6 Shift your body weight.
- 7 Put the power of your shoulder rotary action into your stroke.
- 8 Put the power of your arm swing action into your stroke.
- 9 Put the power of your wrist snap action into your stroke.
- 10 Co-ordinate all parts of the swing.
- 11 Time the stroke.
- 12 With your hands transmit the full power of your stroke thru your club to the ball.
- 13 Apply power without overstraining.
- 14 Learn to make your swing automatic.
- 15 When you play learn to concentrate all your attention on the thing to be done—*play the shot*.
- 16 Be sure always to look attentively at the ball, and without staring at it.
- 17 Take aim properly.
- 18 At all times have "Peace of mind."
- 19 Always go about correcting your errors in the right way.
- 20 Never allow yourself to become so discouraged as to entertain for a single instant the thought of giving up. Golf is a most beneficial exercise even if you do not play in par.
